

AQUA DIAMANTE - Shipment note

Consignee address:

pro aqua Diamantelektroden
Produktion GmbH
Parkring 1
8712 Niklasdorf
Austria

Enter the OP time hours

Remarks: Please write an SMS with the message **Zustand** and send this to the SIM card no. of your Aqua Diamante. You will immediately receive a return SMS in which you have the OP time apart from other operational data.

Note: Please send the AQUA DIAMANTE sterilization cell without the inlet and outlet fittings when returning it. These often get damaged in transit. In the course of maintenance/repair, the fittings are removed but are not reinstalled (however they accompany the return delivery).

Please give us **Your delivery address** so that we may return the sterilization cell to you after maintenance expeditiously.
